

Imagination™ series

Spotlight your unique design vision with Imagination.

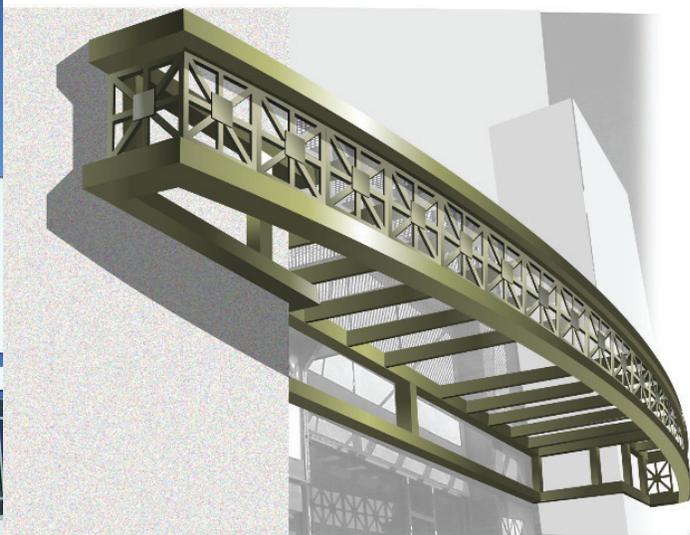

Imagination™ is a custom canopy system with your choice of curving surfaces, freestanding foundations, flat panels and more. Assembled in any combination you desire. You can showcase your “brand” signature with this in-house designed and built canopy system. The structures defy convention. The possibilities of Imagination™ are limitless

Features and Benefits:

- Free-form design opportunities
- Visually brand your company or building through color or shape
- Custom designed to exact specifications
- Can be designed to match other building elements
- Create a lasting focal point.

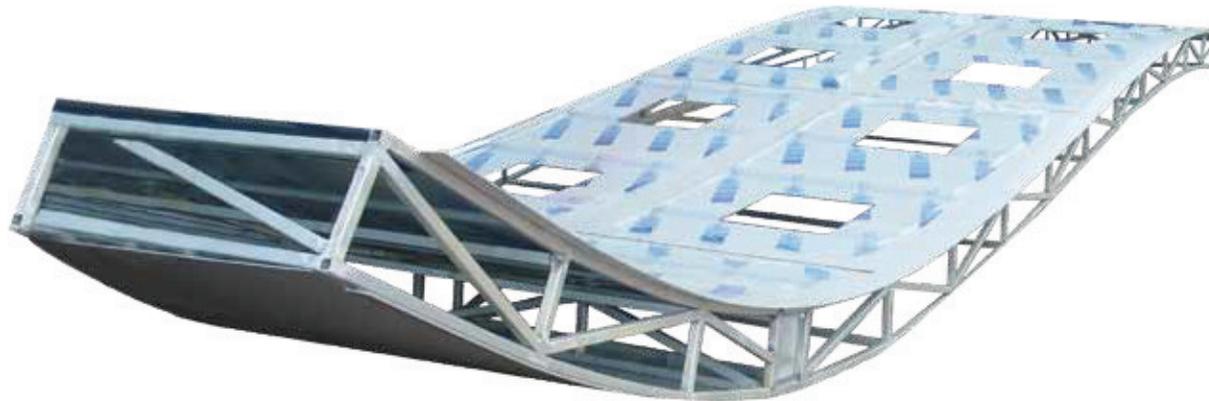

Innovative environmental control through creative design

Imagination™ series

Spotlight your unique design vision with Imagination.

Applications: Doorways / Specialized Facades / Pavilions / Walkways / Porte Cocheres

Technical Data:

- All extrusions meet criteria for ASTM B221 and ASTM B429
- All products are engineered to meet standards of ASCE for design loads
- All framing materials are T5/T6 high strength extruded aluminum

For PDF or AutoCAD Drawings go to: www.architecturalcanopies.com and click on downloads

Finishes:

- Aluminum composite panel is available as standard white or selected from a variety of other acrylic polyurethane painted finishes.
- Metal seamed roofing and cladding have standard Kynar 500 factory applied finishes.
- Aluminum framing can be finished to match or complement the exterior panels.
- Standard finish super-durable Tiger Drylac Series 39 or 49 polyester resin based powder coating.

Full color palettes are also available for download at www.architecturalcanopies.com

All finishes are AAMA rated for excellent outdoor durability
